

PRO-TEX™

Hand & Skin Sanitizer

DESCRIPTION

PRO-TEX™ Foaming Hand & Skin Sanitizer, based on the active ingredient Benzalkonium Chloride, is a unique, Patented formulation for use as a topical skin sanitizer. This **FDA APPROVED, NON-FLAMMABLE**, greaseless, **alcohol-free** product has been confirmed to reduce Staphylococcus aureus (Staph) on the skin by 99.9999% - in as little as 15 seconds. With the addition of skin conditioners and moisturizers, this product leaves skin feeling **moist and supple – not dry & flaky**. Unlike alcohol-based products, this water-based product **helps retain your body's protective natural skin oils** without leaving a sticky feeling. This reduces redness and chapping and aids in the prevention of bacterial absorption. **PRO-TEX™ Foaming Hand & Skin Sanitizer**, in laboratory testing, has been proven to exceed FDA standards for "Leave in Place" sanitizers with an **efficacy rate that actually increases with each use**. **PRO-TEX™** is **NSF Registered** under category E3 and approved for food handlers.

APPLICATION

**SCHOOLS • SPORTS TEAMS • HEALTH CLUBS • DAYCARE CENTERS
• NURSING HOMES • CORRECTIONAL FACILITIES • PERSONAL USE**

EFFICACY DATA SUMMARY

Organism	% Reduction	Organism	% Reduction
Staphylococcus aureus	> 99.9999	Escherichia coli 0157:H7	> 99.999
Staphylococcus aureus-MRSA	> 99.9	Klebsiella pneumoniae	99.999
Community Associated	> 99.9	Pseudomonas aeruginosa	> 99.9999
(CA-MRSA Genotype USA400)		Salmonella typhi	99.999
Clostridium difficile	> 99.9999	Serratia marcescens	99.99
Enterococcus faecalis VRE	99.99	Streptococcus pneumoniae	> 99.999
Escherichia coli	99.999	Streptococcus pyogenes	> 99.999

Special note on SWINE FLU virus. While the FDA does not register any hand sanitizers for viral applications, the U.S. EPA has established that the active ingredient contained in this product has demonstrated excellent efficacy against Influenza A (Swine flu) virus on hard surfaces, at very low active concentrations. This product contains a very high concentration (1,000 ppm) of active quaternary ammonium compound, yet is safe for repeated use!

PROPER USE

Use **PRO-TEX™ Foaming Hand & Skin Sanitizer** as frequently as needed. It will not dry out your skin! Just a single pump is enough to rub thoroughly into your hands, on the soles of your feet or anywhere else where good hygiene is essential.
